OneLab Network invites you to join us for the upcoming virtual event:

Risk Assessment in Clinical Laboratories

When Ebola entered the United States in 2014, healthcare workers were faced with the very real threat of a deadly exotic disease presenting itself anywhere at any time. This revealed the importance of needing to be prepared and ready to respond. Laboratory professionals have since been tasked with performing a risk assessment in an effort to protect themselves and their communities from laboratory-associated infections. Participants of this webinar will be reminded of how to identify and assess for hazards and mitigate risk and will learn of resources available to assist in what can seem like a daunting process.

Each OneLab Network Presentation includes:

- OneLab Network updates and new and relevant resources (10 minutes)
- Presentation (40 minutes)
- Q&A (10 minutes)

Objectives

After completing this training, participants will be able to:

- Identify educational and other resources available through the OneLab Network
- Apply the principles of the risk assessment process
- Recognize hazards inherent in the laboratory environment
- Describe biosafety controls that can help to mitigate risk
- List resources that staff can use to guide the risk assessment process in their environment

Registration and Access Requirements

- Please register for this event cdc.zoomgov.com.
- We will be using Zoom for this session. To participate in this network event, you will need a computer/mobile/smart device with internet access and speakers or headphones to hear the audio. To test your system, visit <https://zoom.us/test>.
- Closed caption information will be available during the webinar.
- If you need assistance with registration, please email OneLab@cdc.gov.

Who Should Attend?

- This basic-level webinar is intended for all clinical and public health laboratory professionals.

What is the Level of Instruction?

- Basic

Professional Acknowledgment for Continuing Education (P.A.C.E.®)

- The Centers for Disease Control and Prevention, Division of Laboratory Systems, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program. This course is approved for 1 contact hour. P.A.C.E.® Course #: 288-303-24
- Instructions for obtaining P.A.C.E.® credit through OneLab REACH will be provided during the webinar.
