

## CDC OneLab Network Event:

# Overview of LDU Resources for Testing Personnel Qualifications in Moderate and High Complexity Laboratories

## Presenter

**Cheryl Dobbe, MLT/MT (ASCP)**

Technical Advisor

Division of Clinical Laboratory Improvement & Quality

Centers for Medicare & Medicaid Services (CMS)

## Join Us!

Wednesday, June 10, 2026, from 12:00 p.m. - 1:00 p.m. ET

Connect virtually by Teams Webinar or telephone!

**OneLab™ invites you to join us for the upcoming virtual event:**

### **Overview of LDU Resources for Testing Personnel Qualifications in Moderate and High Complexity Laboratories**

Join us for an informative and practical webinar focused on the qualification requirements for personnel performing moderate and high complexity laboratory testing. This event will provide a clear overview of regulatory expectations, competency standards, and best practices to ensure compliance with the Clinical Laboratory Improvement Amendments (CLIA) regulations. As part of the Laboratory Director University (LDU) curriculum, a program developed in partnership with the Centers for Medicare & Medicaid Services (CMS) and the Centers for Disease Control and Prevention (CDC), this webinar is designed to strengthen understanding of personnel qualification requirements for moderate and high complexity testing. Whether you are a laboratory director, laboratory manager, supervisor, or testing personnel, you will gain practical guidance to help ensure compliance and support quality laboratory operations.

#### **Each OneLab Network Presentation includes:**

OneLab Network Updates and New and Relevant Resources (10 minutes)

Presentation (40 minutes)

Q&A Session (10 minutes)

## Objectives

After completing this training, participants will be able to:

- Identify educational and other resources available through the OneLab Network.
- Identify the CLIA-required personnel positions involved in the clinical laboratory testing process for laboratories that perform moderate and high complexity testing.
- Verify the responsibilities of specific personnel for accurate and reliable moderate and high complexity testing throughout the testing process.

## Registration and Access Requirements

- Please register for the [CDC OneLab Network Event](#).
- We will be using Teams Webinar for this session. To participate in this network event, you will need a computer/mobile/smart device with internet access and speakers or headphones to hear the audio.
- Closed caption information will be available during the webinar.
- If you need assistance with registration, please email [OneLab@cdc.gov](mailto:OneLab@cdc.gov)

## Who Should Attend?

- This basic-level webinar is for clinical and public health laboratory professionals, quality managers, laboratory directors, clinicians, and researchers.

## What is the Level of Instruction?

- Basic

## Professional Acknowledgment for Continuing Education (P.A.C.E.®)

- The Centers for Disease Control and Prevention, Division of Laboratory Systems is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.
- This course is approved for 1.0 contact hour. P.A.C.E.® Course #: 288-306-26
- Instructions for obtaining P.A.C.E.® credit through OneLab REACH™ will be provided during the webinar.

## Disclosure

*Subject matter experts and presenters wish to disclose they have no conflict of interest or other relationships with the manufacturers of commercial products, suppliers of commercial services, commercial supporters or other organizations related to the course.*
