(a) Be qualified as a technical supervisor under § 493.1449(e) which states that if the requirements of § 493.1449(b) are not met and the laboratory performs tests in the subspecialty of cytology, the individual functioning as the technical supervisor

1449(e)(1)(i) Must be a doctor of medicine or a doctor of osteopathy licensed to practice medicine or osteopathy in the state in which the laboratory is located and **(e)(1)(ii)** Be certified in anatomic pathology by the American Board of Pathology or the American Osteopathic Board of Pathology.

1449(e)(2) An individual qualified under § 493.1449(b) or § 493.1449(e)(1) may delegate some of the cytology technical supervisor responsibilities to an individual who is in the final year of full-time training leading to certification specified in § 493.1449(b) or § 493.1449 (e)(1)(ii), provided the technical supervisor qualified under § 493.1449(b) or § 493.1449(e)(1) remains ultimately responsible for ensuring that all of the responsibilities of the cytology technical supervisor are met.

Note: § 493.1449(b) states that the laboratory may perform anatomic and clinical laboratory procedures and tests in all specialties and subspecialties of services except histocompatibility and clinical cytogenetics services, provided the individual functioning as the technical supervisor

(1) Is a doctor of medicine or doctor of osteopathy licensed to practice medicine or osteopathy in the state in which the

(2) Is certified in both anatomic and clinical pathology by the American Board of Pathology or the American Osteopathic Board of Pathology.

(b)(1) Be qualified as a cytotechnologist under § 493.1483 which includes the following routes for qualification

Meet the qualifications of a technical supervisor under § 493.1449(b) or (e).

Possess a current license as a cytotechnologist, issued by the state in which the laboratory is located, if such licensing is required, and must meet one of the following requirements:

- Have graduated from a school of cytotechnology accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP).
- Be certified in cytotechnology by an HHS-approved certifying agency.
- Be qualified and serving as a cytology general supervisor in a CLIA-certified laboratory as of December 28, 2024, and have done so continuously since December 28, 2024.

(b)(2) Have at least 3 years of full-time (2,080 hours per year) experience as a cytotechnologist within the preceding 10 years.
