Laboratory directors carry immense responsibility overseeing operations, hiring qualified staff, and ensuring compliance with CLIA regulations.
Most importantly, they are responsible for ensuring patients receive accurate, reliable test results every day.
Laboratory Director University is a free training program offering self-paced, high quality content and resources for current and aspiring laboratory directors.
The Centers for Medicare and Medicaid Services, Center for Clinical Standards and Quality, Division of Clinical Laboratory Improvement and Quality has partnered with the Centers for Disease Control and Prevention, Division of Laboratory Systems to develop this program.
The eLearning course, CLIA Personnel Qualifications and Responsibilities High Complexity Testing, featured here is one of the many LDU related resources to help laboratory directors improve laboratory performance and CLIA regulatory compliance.

Join Laboratory Director University and discover the resources you need to help your CLIA certified laboratory succeed.
